Provider

GetReadyFor.ai is a service provided by Inorm V.O.F., Westeinde 4, 2969 BK Oud-Alblas, the Netherlands. Dutch Chamber of Commerce number 50868055; establishment number 000000915181. Contact: legal@getreadyfor.ai.

The paid report is available only to business customers ordering on behalf of a business and for business purposes. Anyone may request the free scan.

These terms govern requests for and use of the free scan and, where Inorm is the seller, the paid report. The privacy notice separately explains how personal data is processed.

Free scan

The scan reviews a representative selection of publicly accessible pages. The report describes the scope examined. It is not a complete SEO or security audit and does not guarantee search rankings, AI mentions, availability, or website functionality.

The requester confirms they are authorized to request the scan. The scan does not fill in forms, submit inquiries, or modify the website.

Paid report

The extended report is a one-time digital PDF product for business use. The base price is €79 before applicable taxes. Checkout displays applicable taxes and the total payable before payment.

During the initial delivery phase, AI helps prepare the report and an employee reviews it internally. We deliver it by email within five business days after payment is confirmed. The price does not include implementation, coaching, consultation, or ongoing services.

Orders and payment

For a paid order, enter your business name and billing information on the payment page. Where applicable, the payment page may request a business tax identifier. Customers are responsible for providing accurate and complete information.

An external payment provider processes payments. For some transactions, the payment provider also acts as the seller and handles indirect taxes; for others, Inorm remains the seller. The payment page and confirmation identify the seller for each transaction. Inorm accepts paid orders only where an appropriate tax route is configured.

Your order becomes a paid assignment when the seller identified on the payment page confirms the order and payment. If Inorm is identified as the seller, these terms govern the paid order. If another party is identified as seller, that party's sale and payment terms govern the transaction; Inorm then provides the report service described here.

Delivery and file issues

We email the report as a PDF to the address associated with the order within five business days after payment is confirmed. You are responsible for providing a correct email address and having access to that mailbox.

If you do not receive the report or cannot open the file, contact support@getreadyfor.ai and include your order reference. We will investigate and resend or correct the file as needed. If we fail to deliver the report, the refund terms below apply, without affecting any mandatory statutory rights.

Cancellation and refunds

If Inorm is the seller, a business customer may cancel before work on the report begins and receive a full refund. Once work has started, no automatic refund is provided, except where Inorm fails to deliver the report or another refund has been agreed in writing. If another party is identified as the seller, that party's cancellation and refund terms govern the sale. Mandatory statutory rights and remedies for defective digital delivery remain unaffected.

To request cancellation, report a delivery problem, or ask for a refund, contact support@getreadyfor.ai and include your order or scan reference. If another party is the seller, we will help you submit the request to that party.

Right to use and limitations of the report

After full payment, the business customer receives a perpetual, non-exclusive right to use the report for its own business purposes and share it with employees and professional advisers supporting the business. The report may not be resold as a standalone product or made public without Inorm's prior written permission. This right does not transfer rights in third-party materials or Inorm's own tools and methods.

The report provides practical technical information, not legal, tax, financial, or comprehensive security advice. Findings are based on the scan performed and do not guarantee search results, AI mentions, availability, website functionality, or any other outcome. Customers should review recommendations before acting on them. Implementation of recommendations is not included.

Liability and statutory rights

The parties' liability is governed by applicable law. Nothing in these terms excludes or limits liability, warranties, or remedies to the extent the law does not permit it. Mandatory rights relating to non-conforming or defective digital delivery remain in force.

Governing law and contact

These terms are governed by Dutch law. Nothing in these terms limits rights or protections that cannot be excluded under mandatory law, including consumer protection where applicable. Questions, complaints, or help with your order: support@getreadyfor.ai.
